CANS & DISKS

Enhance interior lighting aesthetics with ESL's low-profile surface-mounted disks available in 4" and 6" options. ESL's commercial round or square can is available in 4", 5/6" and 8" configurations and is uniquely designed for easy installation with pre-attached junction box.

- ENERGY STAR® Listed
- Use for Retrofit and New Applications
- Triac Dimmable
- Wet Location Listed

Ti LINEAR LED FIXTURES

With virtually limitless configurations and options, ESL Vision's Ti Linear LED fixtures are available ranging from 4,680 to 42,900 lumens and utilize our unique patented installation approach. All fixtures are available with multiple occupancy sensor, photocell and emergency options.

- DLC Listed
- Independent Ti Bar Channels
- Lumens Ranging From 4,680 to 42,900
- Emergency, Occupancy and Photocell Options

TUBES

Replace existing fluorescent tubes to ESL Vision's DLC Listed Type A, B and C Linear LED tubes. Both Type A and B tubes can be used with or without a ballast. Our Type C tubes are uniquely designed to be installed quickly and easily.

- Use for Retrofit and New Applications
- 100+ tube options
- DLC Type A, B & C
- Easy Installation

SENSORS & CONTROLS

Reduce power consumption and increase efficiency by adding connected ESL Vision sensors and controls. With both internal and external options available, controlling how much light is needed, when it's needed, is simple and easy.

- Occupancy Sensors
- Photocells
- Emergency Backup Power
- Remote Programming
